

Sherfield School 1945-46

The date of this photo date has yet to be confirmed, but this is thought to be the first school photo taken after the war had finished, just as the 1939 photo was the last to be taken before the war commenced.

This photograph was kindly provided by Donald Rickwood, together with the names and addresses of some of the pupils: see below. Other names have been added by Pat Mison via his son Chris Mison. Additional addresses have been identified using various genealogical records available on Ancestry, but some inferences from these records may be incorrect.

Please provide any information which you may have on the pupils who have not been identified to peterlansley@managementreality.com
